Lead Manager's Commentary as at 30.06.24

The Conservative ISA returned +0.7% over the second quarter of 2024 and a pleasing +11.5% over the last 12 months.

Performance was driven by both asset allocation and stock selection. We hold an overweighting in fixed-interest/corporate bonds. Our best performing funds over the quarter being Royal London Corporate Bond Fund and Rathbone Ethical Bond Fund.

The Conservative ISA holds a underweight position in equities. Outperformers in the quarter included Slater Growth Fund, Baillie Gifford UK Growth Trust, Blackrock World Mining Trust, 3i Group Trust and Schroder Oriental Income Trust. Underperformers included Edinburgh Worldwide Trust, Scottish Mortgage Trust and Mercantile Trust.

We are overweight alternative assets. Our best performing commercial property holding was Workspace Group REIT and our best performing alternative was Bluefield Solar Income Fund.

No new holdings were established in the quarter. One position was exited in the quarter Artemis Positive Future Fund.

The Conservative ISA is positioned to benefit from the recovery in the western world and take advantage of lower interest rates. We favour income producing assets, with some inflation protection and a balanced exposure to UK & International equities and corporate debt, whilst retaining a minimal weighting to direct sovereign debt.
