Investment Objective

The Balkerne Asset Management Income MFS (Managed Fund Service) is an actively-managed portfolio of 15 to 30 holdings, with a minimum cash holding of 3% and has the Investment Objective to provide long-term capital and income appreciation with a **Lower than Medium Risk Profile**

Suitability

This portfolio is suited to clients who wish to retain a degree of safety in their portfolio, but are also looking for a higher rate of investment return than is associated with prioritising capital preservation. Investors understand that the value of their investments, and the income from them, are not guaranteed and may rise and fall to a greater extent than with a 'Conservative' portfolio.

Investment Policy

To achieve the investment objective by investing principally, but not exclusively, in fixed-interest/bond and cash investments (minimum weighting 33%), UK blue-chip equities (minimum weighting 20%) and, as appropriate, property, international and specialist stocks through collective investments and alternative investments (such as absolute return funds or multi-asset strategy funds).

Valuations & Reporting

Quarterly valuations are issued as at 31 March, 30 June, 30 September and 31 December each year. Included with the valuation is a schedule of income received for the period.

Asset Allocation (as at 21/10/2020)

Asset Type		Geographical Split

% Growth, Cumulative	3 Months	6 Months	1 Year	3 Years	5 Years
Balkerne Asset Management Income MFS	3.4%	18.3%	0.9%	8.6%	23.1%

Lead Manager's Commentary as at 30.09.20

The Income MFS returned 3.4% over the third quarter of 2020 and a satisfactory 0.9% over the last 12 months.

Performance was driven by both asset allocation and stock selection. We are underweight in fixed-interest/corporate bonds. Our best performing funds over the quarter being L&G Global Inflation Linked Bond Index fund and Rathbone Ethical Bond fund.

The Income MFS is overweight equities. Outperformers in the quarter included Baillie Gifford Shin Nippon Trust, Scottish Mortgage Trust, 3i Group Trust and Baillie Gifford Japan Trust. Underperformers included Fidelity Special Values Trust and BMO Capital & Income Trust.

Our best performing commercial property holding was Tritax Big Box REIT and our best performing alternative was Empiric Student Property REIT.

One new holding was established in the quarter, Baillie Gifford UK Growth Trust. No positions were exited in the quarter.

The Income MFS is positioned to benefit from the continued growth in the western world and take advantage of the extended period of low interest rates and benign credit conditions. We continue to favour UK & International equities over corporate debt and retain a zero weighting to direct sovereign debt.

Company Profile

At Balkerne Asset Management we have always held the belief that managing client monies is a privilege and not a right and it is this ethos which underpins the day to day management and processes within the organisation.

Established since the early 1980's, Balkerne Asset Management has built a strong tradition for offering both bespoke and model Discretionary Portfolio Management services, tailored to the objectives and risk profile of their clients. With a team of experienced and knowledgeable individuals within the investment and financial services professions, Balkerne Asset Management are well positioned to manage a broad range of investment portfolios inclusive of a diverse spread of assets across all market and geographic sectors.

Detailed attention to the daily management of portfolios is a critical aspect of the firm's process and has helped earn Balkerne Asset Management a respected reputation for providing a unique approach to discretionary portfolio management for discerning clients.
