Investment Objective

The Balkerne Asset Management Growth MSS (Managed Stockbroking Service) is an actively-managed portfolio of 30 to 45 holdings and has the Investment Objective to provide long-term capital appreciation, with less emphasis on income, and a **Higher than Medium Risk Profile**.

Suitability

This portfolio is suited to clients who understand that the level of potential return on their investment should increase as a result of taking greater risk. They also understand that to achieve the potential for higher returns, their investment may fluctuate substantially at times, but that over the longer term they could achieve a higher level of return than from a 'Balanced' portfolio. The value of investments, and the income from them, are not guaranteed and may rise and fall to a greater extent than with a 'Balanced' portfolio.

Investment Policy

To achieve the investment objective by investing principally, but not exclusively, in UK blue-chip equities within the UK FTSE-350 Index (minimum weighting 50%) and, as appropriate, fixed-interest/bond investments, property, international (minimum weighting 10%) and specialist stocks through collective investments and alternative investments (such as absolute return funds or multi-asset strategy funds).

Valuations & Reporting

Quarterly valuations are issued as at 31 March, 30 June, 30 September and 31 December of each year. Included with the valuation is a schedule of income received for the period.

Asset Allocation (as at 21/10/2020)

<u>Asset Type</u>		<u>Geographical Split</u>	
Equities	83.7%	United Kingdom	59.9%
Alternative	6.7%	International	40.1%

% Growth, Cumulative	3 Months	6 Months	1 Year	3 Years	5 Years
Balkerne Asset Management Growth MSS	4.6%	24.1%	1.8%	12.3%	44.4%

Lead Manager's Commentary as at 30.09.20

The Growth MSS returned 4.6% over the third quarter of 2020 and a satisfactory 1.8% over the last 12 months.

Performance was driven by both asset allocation and stock selection. We are underweight in fixed-interest/corporate bonds.

The Growth MSS is overweight equities. Outperformers in the quarter included Kainos Group, Dechra Pharmaceuticals, Rentokil Initial, Baillie Gifford Shin Nippon Trust, Scottish Mortgage Trust and 3i Group Trust. Underperformers included S&P Group, Royal Dutch Shell B, Vistry Group and Moneysupermarket.com Group.

Our best performing commercial property holding was Tritax Big Box REIT and our best performing alternative was Empiric Student Property REIT.

No new holdings were established in the quarter. One position was exited in the quarter, Schroders.

The Growth MSS is positioned to benefit from the continued growth in the western world and take advantage of the extended period of low interest rates and benign credit conditions. We continue to favour UK & International equities over corporate debt and retain a zero weighting to direct sovereign debt.

Company Profile

At Balkerne Asset Management we have always held the belief that managing client monies is a privilege and not a right and it is this ethos which underpins the day to day management and processes within the organisation.

Established since the early 1980's, Balkerne Asset Management has built a strong tradition for offering both bespoke and model Discretionary Portfolio Management services, tailored to the objectives and risk profile of their clients. With a team of experienced and knowledgeable individuals within the investment and financial services professions, Balkerne Asset Management are well positioned to manage a broad range of investment portfolios inclusive of a diverse spread of assets across all market and geographic sectors.

Detailed attention to the daily management of portfolios is a critical aspect of the firm's process and has helped earn Balkerne Asset Management a respected reputation for providing a unique approach to discretionary portfolio management for discerning clients.
